

CHILD CARE PROVIDER FORM

2019-2020

Child Care Provider Forms **must be renewed each year** for bus scheduling purposes. Parents wishing to have their student(s) transported to and from a child care provider must complete this form and return it to the Transportation Department and/or the student(s) school. All bus changes take 48 hours to process. **Please do not wait until September to make child care arrangements.** Waiting until September to make arrangements to have your child ride the school bus to and from a child care provider could result in having your request denied because that particular bus is full. **Forms received the first week of school will not be implemented until the second week of school.**

Please note on this form if the student will be attending child care for both the morning and afternoon. Busing arrangements must remain the same every day. **Busing to a child care provider can only occur if the provider lives within the boundaries of the school which the student(s) attend.** Please call the Transportation Office at 609-698-5816 x2 with any questions or concerns.
