

Bus Safety

In order to ensure the safe transportation of the students of the Barnegat Township School District, we ask that all children conduct themselves on the bus in a manner consistent with the established standards for classroom behavior. Video and/or monitoring devices are used on all school owned and student(s) vehicle may be monitored at any time.

In the event that a student does not act properly on a bus, the driver will report these instances to the building administration and appropriate action will be taken.

Students with repeated disciplinary problems may have their riding privileges suspended pursuant to existing administrative policy and procedures. In such cases, the parents/guardians of the students involved become responsible for transporting their children. Students suspended from bus transportation are expected to attend regular classes each day as required by State Law.

For your student's safety we require that students get on and off at their assigned stop. Emergency situations that may require a temporary change **must** be cleared with the school administration by the student's parent/guardian.

Parent/Guardian Guidelines

The following information is offered in order to assist you in our joint effort to provide a pleasant and safe ride for your children.

A. Please reinforce bus safety regulations with your child emphasizing the necessity of everyone's cooperation in order to ensure safe transportation.

Parent/Guardian Guidelines

B. As per Board Policy, only one seat on one bus route is reserved for each child going to and from school. No exceptions will be made. If a student is to be dropped off at a babysitter, the babysitter must be on a route assigned to the child's school and arrangements must be made for 5 consecutive days. The childcare request form can be located on the district website www.barnegatschools.com

C. Our PK-2nd grade students must have a parent or guardian at their assigned bus stop. If no one is present the bus driver will continue their route and return your child to their assigned school. Parents who wish to routinely pick up their child(ren) at the assigned stop must make alternative plans when not able to be present. In an **emergency only, a parent should advise the school** if a request is being made not to place a child on the bus because the parent will pick up the child at school.

D. Please do not ask your child to wait in the office for you and not board the bus at dismissal time unless you have verified this with the building administrator.

E. Please do not park your car in a bus stop or block bus traffic at the schools during loading or unloading of students. Please obey all posted signs at each school building regarding parking and times.

F. Remember to stop when approaching a school bus if the flashing red lights are on. It is a violation of traffic laws to pass a school bus when the red lights are flashing.

G. If your child is encountering problems on the bus, please contact the school administration or the transportation office.

H. Drivers are not allowed to permit parents on the bus at any time unless authorized to do so by Administration. Any parent who boards the bus uninvited will have their child's transportation suspended for the remainder of the school year.
